FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1942.

[NOTE.—**On an average of the five years ending 1940-41, the areas under jute in the Province of Bengal and the Bengal States to which this forecast relates, represent some 80·3 and 1·3 per cent. respectively to the total area under jute in India.**]

Season.—The season opened with favourable weather conditions and the low and midland crop in the East and North Bengal districts started well. Later the conditions changed owing to a late and weak monsoon with the result that sowings in the Daisee tracts were delayed and the growth of the high and midland crop was adversely affected particularly in the West and parts of some North Bengal districts. Latterly beneficial rains have occurred and the late-sown crop is quite promising.

Condition of the crop.—The crop has been generally healthy. Steeping water is now sufficient.

Area.—The area under jute (Final Forecast, 1942) of 2,712,940 acres is the licensed area after elimination of the lands for which licence was issued but which were not actually sown as disclosed on an examination of the jute lands under section 14 of the Bengal Jute Regulation Act.

Outturn.—As in the previous years the percentage figures are calculated on the basis of the divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions	... 3·7
Rajshahi Division	... 3·5
Presidency and Burdwan Divisions	... 3·2

The total outturn of the crop is estimated at 8,039,815 bales for the province.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

FINAL FORECAST OF THE JUTE CROP OF BIHAR, 1942.

[NOTE.—**On an average of the five years ending 1940-41 the area under jute, to which the Bihar forecast relates, represents about 10·0 per cent. of the total area under jute in India.**]

Acreage.—The final district returns of the six jute-growing districts of the province show an area under jute of 232,900 acres as against the last year's area of 242,500 acres. The decrease in area is due mainly to propaganda undertaken for reducing the cultivation and also to slump in jute.

Weather conditions.—In March light rain fell in all the jute-growing districts, the fall being below the normal everywhere except in Darbhanga and Bhagalpur where it was above the normal. In April rainfall was above the normal everywhere except in Champaran and Muzaffarpur where it was below the normal. In May rainfall was below the normal everywhere. In June rain fell in all the districts, the fall being below the normal everywhere except Muzaffarpur and Darbhanga where it was slightly above the normal. In July the rainfall was below the normal everywhere. In August there was heavy rain in almost all the districts. The weather was on the whole favourable for the growth of the crop.

Outturn.—In the district of Purnea the outturn of the crop has been estimated at 42 per cent. of the normal. Champaran reports 95 per cent. Muzaffarpur, Darbhanga, Bhagalpur and the Santal Parganas report 75, 60, 70 and 57 per cent., respectively.

Accordingly I estimate that the outturn this year will be 44 per cent. of the normal as against 51 per cent. in the last year. Taking the normal outturn per acre to be $3\frac{1}{3}$ bales as in previous years the gross outturn on 232,900 acres estimated to be under jute in this province, comes to 340,300 bales, against 414,300 bales last year. Adding 14,500 bales, to this as probable imports from Nepal, the forecast figure for Bihar comes to 354,800 bales.

DEPARTMENT OF DEVELOPMENT, ORISSA.

FINAL FORECAST OF THE JUTE CROP OF ORISSA, 1942.

[NOTE.—**On an average of the five years ending 1940-41 the area under jute in Orissa to which this forecast relates, represents about 0·6 per cent. of the total area under jute in India.**]

Acreage.—The crop is mainly grown in district Cuttack. In other two districts, Balasore and Puri, it is cultivated to a small extent. The total area sown is estimated at 23,500 acres against 25,054 acres in the preceding year.

Character of the season.—There was not sufficient rainfall at the time of sowing for which there was a decrease in area in district Cuttack and in districts Balasore and Puri sowing commenced late. In district Balasore seedlings in some parts were damaged by flood.

Outturn.—The total outturn for the province is estimated at 71 per cent. of the normal against 70 per cent. in the preceding year. On the basis of 3½ bales as the standard outturn per acre, the gross yield this year comes to 55,975 bales against 58,810 bales in the preceding year.

Director of Development.

DEPARTMENT OF AGRICULTURE, ASSAM.

FINAL FORECAST OF THE JUTE CROP OF ASSAM, 1942.

[NOTE.—**On the average of the five years ending 1940-41 the area under jute in Assam represents 7·6 per cent. of the total area under jute in British India.**]

Character of the season.—As indicated in the preliminary forecast the weather was favourable in the earlier part of the year. But local floods and unfavourable weather in July and August damaged the crop to a considerable extent and hence the outturn is estimated to be far below the normal.

Area sown.—The total area under the crop as estimated by the Deputy Commissioner comes to 270,500 acres against the revised figure of 304,400 acres last year and 234,500 shown in the preliminary forecast of this year. The area reported in the preliminary forecast has been revised in five districts.

Outturn.—The percentage outturn per acre has been estimated to be 49 of the normal against 62 (revised) of the previous year. On the basis of the normal yield of 3·5 bales of 400 lbs. each per acre, the total production of the province is 466,000 bales against 658,800 bales (revised) of last year or a decrease of 29 per cent.

Director of Agriculture, Assam.

Cachar (Plains)	200	300	400	60	65	600	900	Middle of August. Normal.	The slight increase in area is due to favourable weather. The weather was not however favourable later on in June due to continuous rains which retarded the growth considerably and the outturn is expected to fall below normal.
Sylhet ..	13,000	31,200	64,900	60	35	65,600	124,900	Early part of August, Normal.	The increase in area as compared with the actual of last year is due to the widespread reduction of area due to flood last year. The weather was favourable in the beginning of the year for preparation of land and sowing.
Goalpara ..	60,000	106,500	84,000	60	30	223,600	88,200	First week of July. Normal.	The decrease in area is due to low price of jute. The weather was not favourable for the crop and heavy flood in July damaged the crop to a great extent. This accounts for low outturn.
Kamrup ..	39,800	63,100	52,700	65	56	143,600	103,300	Middle of August. Normal.	The decrease in area is due to unfavourable weather at the sowing time and fall of price of jute. The weather was not favourable and some damage was done by early flood and hence outturn is expected to fall below the normal.
Darrang ..	12,100	24,600	16,200	65	65	56,000	36,900	First week of August. Normal.	The decrease in area is due to the low price of jute and land utilised for other crops. The weather was favourable at the sowing time but afterwards flood damaged the crop in some localities The outturn is therefore expected to fall below normal.
Nowgong ..	50,000	66,600	48,900	60	60	139,900	92,200	Middle of July. Normal.	The decrease in area is due to low price obtained last year and also propaganda to grow more food crops. The weather was favourable at the sowing time but flood damaged the crop considerably. The outturn is therefore expected to fall below the normal.
Sibsagar ..	300	1,000	900	95	90	3,300	2,800	First week of August. Normal.	Dry weather followed by floods in August checked the growth to some extent and hence the outturn is expected to be slightly below normal.
Lakhimpur ..	700	4,900	4,000	90	85	15,400	11,900	....	The weather condition in the beginning was favourable for the crop, but continuous rain in May and June hampered the growth of the crop and hence the outturn is expected to fall below the normal.
Garo Hills (Plains).	5,000	6,200	3,500	50	40	10,800	4,900	Last part of July. Normal.	The decrease is due to unfavourable weather and low price of jute. The excessive rain in June and dry weather in later months are responsible for low outturn.

NOTICE.

Calcutta, the 5th October 1942.

Applications are invited for admission to the Prince of Wales's Royal Indian Military College at Dehra Dun. The College provides a public School education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter a Cadet College, with a view to obtaining Commissions in the Indian Land Forces, the Indian Air Force or the Royal Indian Navy. It is intended for those who wish to make one of those services their profession in life, and parents or guardians of candidates will be required to furnish a declaration to this effect. The course of study at the College will be such that, should a boy fail in the competitive examination for admission to a Cadet College or for entry in the Royal Indian Navy he will be in as favourable position for entry to a University as if he had been educated at an ordinary School. In this respect it is important to note that the College has been recognised by the Cambridge Syndicate for the award of the Cambridge School Certificate "A".

2. The winter term of the College will commence from the 20th January 1943. For admission to this term a candidate must have attained the age of 11 years and be under 12 years on the 20th January 1943. Only Indian and Anglo-Indian unmarried boys who are natives of, or domiciled in, Bengal are eligible. The fee is Rs. 1,500 for each School year payable in two equal instalments of Rs. 750 each, one at the beginning of each term. NOTIFICATIONS.

No. 2258R.I.—3rd October 1942.—In exercise of the power conferred by section 55 of the Bengal Agricultural Debtors Act, 1935 (Bengal Act VII of 1936), the Governor is pleased to make the following amendments in the Bengal Agricultural Debtors Rules, 1936, published with notification No. 9187L.R., dated the 26th June 1936, as subsequently amended, namely:—

Amendments.

(*1*) *After* rule 77A of the said rules *add* the following new rules:—

77B. (*1*) On receipt of an application under sub-section (*2*) of section 37A and being satisfied that the application fulfils the conditions specified in sub-section (*1*) of that section and that it can be entertained, the Board shall issue a notice in Form V to the decree-holder and the landlord of the applicant in respect of the property sold in the case where the decree-holder is not such landlord, and to the mortgagee where the Board finds that the property sold is subject to any *bona fide* mortgage executed by the decree-holder before the twentieth day of December 1939, intimating that the Board will consider the question of amicable settlement of the debt on the day of hearing mentioned in the notice.

(*2*) After an application under sub-section (*2*) of section 37A is received, any member of the Board may examine the applicant and may call for additional information in order to complete such application.

77C. (*1*) The Board shall try to persuade the parties on the day of first hearing after the service of a notice under rule 77B to come to an amicable settlement and for that purpose if necessary, time, not exceeding six weeks, may be allowed by the Board.

(*2*) When an amicable settlement is effected, the terms of settlement may be embodied in writing in the form of a deed and registered by the party which executes it. When such settlement takes place, the Board shall record an order to that effect and then dispose of the case as no further action would be necessary.

77D. (*1*) When the parties fail to make an amicable settlement of the debt, the Board shall estimate the average annual gross receipts, deemed to have been derivable from the property sold, during the period beginning on the first day of January 1934 and ending on the thirty-first day of December 1938, together with, in the case where the land is in *khas* possession of the decree-holder referred to in clause (*a*) of sub-rule (*2*), the value of straw or other bye-product, in the manner provided in sub-rules (*2*) and (*3*).

(*2*) (*a*) When the land is in *khas* possession of the decree-holder, the annual gross receipts shall be estimated by taking the normal yields in maunds per acre for staple crops as per Schedule I under rule 50B in each district and then the money value of the crop shall be estimated by a reference to the estimate prepared by the Collector under sub-rule (*5*) of rule 50B; and

(*b*) When the land is not in *khas* possession of the decree-holder and the under-*raiyat* of the debtor has been allowed to continue notwithstanding that the decree-holder has taken possession of the land, the gross receipts shall be estimated to be the amount payable by such under-*raiyat* to the decree-holder.

(*3*) Where the land is in *khas* possession of the decree-holder referred to in clause (*a*) of sub-rule (*2*), the value of the straw or other bye-product shall be calculated in accordance with the market value of such straw or bye-product.

77E. In estimating the compensation payable under sub-section (*6*) of section 37A, the Board shall take into consideration the following:—

(*a*) The compensation for a building whether of masonry, bricks, stone or of any other material whatsoever shall be estimated by taking into consideration the capital expenditure incurred in the erection of the building with due allowance, as provided in this rule, for the depreciation of value on account of the time which has elapsed since the building was erected. In case of a building, of masonry, bricks or stone the rate of such depreciation may be taken as four *per cent.* for each year. In case of a corrugated tin building or a building of tiles, if it is in good condition, the rate of such

depreciation may be taken as seven and a half *per cent.* for each year. The rate of depreciation may be taken as ten *per cent.* for each year in case of a thatched building if it is in good repair; and

(*b*) the amount of compensation for tanks or wells shall be estimated in the following manner:—

(*i*) If the water of the tank or well is used for the purpose of irrigation or of drinking and the tank or well is in good repair, the cost of construction of a similar new tank or new well should be estimated as the amount of compensation.

(*ii*) If the water of the tank or well is not used for the purpose of irrigation or of drinking, compensation should only be allowed on the present value of the tank or well.

77F. (*1*) In calculating the cost referred to in sub-clause (*i*) of clause (*a*) of sub-section (*7*) of section 37A, the Board shall take into consideration the following:—

(*a*) The amount of cost of execution of the decree or certificate up to date of sale. This is included in the total amount mentioned in the proclamation of sale of immovable property and shall be ascertained by deducting the amount of decree or certificate from the total amount mentioned in the proclamation.

(*b*) Cost of application for permission to purchase by the decree-holder or certificate-holder, namely:—

	Court-fees on application.	Demi paper.
	Annas.	Pies.
(*i*) When the value of the suit of certificate is less than Rs. 50.	2	3
(*ii*) When the value of the suit or certificate is Rs. 50 or above.	12	3

(*c*) The amount of poundage fee as has been paid by the decree-holder-purchaser. The method of calculation of poundage fees on purchase money has been laid down in Article 7(*b*) of rule 680(*2*) of High Court Civil Rules and Orders, Volume I. A copy of the article together with the relevant note thereunder is appended as Schedule II to these rules. Similar provision will be found in rules 53(*3*) and 53(*4*) of the Bengal Certificate Manual, 1936. In case of any difficulty of calculation, the amount of poundage fee as has actually been paid by the decree-holder-purchaser may be ascertained by a reference to the Civil Court or the Certificate Officer concerned.

(*d*) The value of stamps of Sale Certificate (*vide* Articles 18 and 23 of Schedule I to the Indian Stamp Act, 1899).

(*e*) The cost of petition for the delivery of possession—the rate is the same as mentioned against (*i*) and (*ii*) of clause (*b*) above.

No further adjournment of the meeting shall be allowed.

6. The Bill is intended to remove from the Statute-book certain Acts or portions of Acts which have either ceased to have effect or ceased to be in force, and to correct small errors detected in the Acts included in the Second Schedule. The notes which follow explain the circumstances underlying the items of the Bill. Clause 4 of the Bill contains the precautionary provisions which it is usual to include in all Bills of this kind.

S. SULTAN AHMED.

NEW DELHI;

The 7th September, 1942.

NOTES.

The First Schedule.

The enactments, or portions of enactments, which are dealt with in the First Schedule are either "spent" or are of a purely amending nature and by virtue of section 6A of the General Clauses Act, 1897, can now be removed from the Statute-book.

The Second Schedule.

The Code of Civil Procedure, 1908.—The Government of India (Adaptation of Indian Laws) Supplementary Order, 1937, when amending sub-section (*l*) of section 60 of the Code of Civil Procedure, 1908, by the substitution of the words "appropriate Government" for the words "Governor General in Council" in clause (*l*) of the proviso, and by the addition to the proviso of an Explanation defining "appropriate Government", omitted to carry out a similar amendment in rule 48 of Order XXI in the First Schedule. This omission is now rectified.

The Indian Income-tax Act, 1922.—A clerical error is corrected.

The Provident Funds Act, 1925.—A consequential amendment, overlooked when the Government of India (Adaptation of Indian Laws) Order, 1937, substituted other words for the words "the Government", is now made.

The Indian Navy (Discipline) Act, 1934.—The Government of India (Adaptation of Indian Laws) Order, 1937, as modified by the Government of India (Adaptation of Indian Laws) Supplementary Order, 1937, when amending clause (*l*) of section 53 omitted to carry out the amendments now being made. The words omitted in clause (*g*) are inappropriate and should have been omitted while adapting the U. K. Naval Discipline Act.

The Insurance Act, 1938.—A clerical error is corrected.

The Arbitration Act, 1940.—An error which arose during and in consequence of the rearrangement of the provisions of the Bill prior to its introduction is here corrected.

The Delhi Restriction of Uses of Land Act, 1941.—A consequential amendment which should have been made during the passage of the Bill is now carried out.

The Industrial Statistics Act, 1942.—A clerical error is rectified.

The Calcutta Port Act, 1890.—The Eastern Bengal Railway is now amalgamated with the Assam Bengal Railway under the name of the Bengal and Assam Railway. The Port Officer, Calcutta, in consequence of the centralization of the Mercantile Marine Administration, has been replaced by the officer whose designation is substituted by the amendment now made.

The Chittagong Port Act, 1914.—A consequential amendment is made in the Act. As a result of the amalgamation of the Assam Bengal Railway with the Eastern Bengal Railway, the whole system now operates under the name of the Bengal and Assam Railway.

The Assam Forest Regulation, 1891.—The words omitted are inappropriate in sub-section (*3*) of section 37 of the Regulation and it was only through oversight that the matter was not set right by the Government of India (Adaptation of Indian Laws) Supplementary Order, 1937. This is now rectified.

Calcutta.—No. 4211A.—7th October 1942. —Mr. C. E. S. Fairweather, C.I.E., I.P., Commissioner of Police, Calcutta, is allowed leave on average pay for five weeks, under rule 81(*b*)(*i*) of the Fundamental Rules, with effect from the 26th October 1942, or any subsequent date on which he may avail himself of it.

NOTIFICATIONS.

No. 4201A.—7th October 1942.—Whereas, in view of abnormal circumstances arising out of the war, it has become necessary, as an emergency measure, to create without delay one hundred and fifty-eight temporary posts as additions to the cadre of the Bengal Junior Civil Service;

And whereas it will not be appropriate to apply the provisions of Schedule II of the Bengal Provincial Services Recruitment Rules in the making of these appointments both because the duties for which these posts are being created are of a purely temporary nature and because direct recruits could not be entrusted with such duties without previous training;

Now, therefore, in exercise of the power conferred by section 241 of the Government of India Act, 1935, the Governor is pleased to make the following rule, namely:—

Rule.

Notwithstanding anything contained in the Bengal Provincial Services Recruitment Rules one hundred and fifty-eight temporary posts in the Bengal Junior Civil Service Cadre shall be filled entirely by promotion from the following officers:—

(*a*) Special Officers, Debt Conciliation.
(*b*) District Kanungos.
(*c*) Settlement Kanungos.
(*d*) Managers and Assistant Managers, Court of Wards Estates.
(*e*) Jute Regulation Officers.

No. 4202A.—7th October 1942.—Whereas, it has become necessary to create one hundred and fifty-eight special posts for giving effect to the policy of Government regarding the maintenance of supplies essential to the life of the community and for the performance of other extraordinary duties connected with the war, it has become essential as an emergency measure to increase the cadre of the Bengal Junior Civil Service by one hundred and fifty-eight temporary posts;

And whereas, in order to give immediate effect to the aforesaid policy it is considered undesirable because of the delay which would thereby be incurred to consult the Bengal Public Service Commission in the selection of officers to fill the said temporary posts;

Now, therefore, in exercise of the power conferred by sub-section (*3*) of section 266 of the Government of India Act, 1935, the Governor is pleased to make the following regulation, namely:—

Regulation.

It shall not be necessary to consult the Bengal Public Service Commission, regarding the appointment of one hundred and fifty-eight officers to temporary posts in the Bengal Junior Civil Service Cadre by promotion from the following officers:—

(*b*) District Kanungos.
(*c*) Settlement Kanungos.

Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 3rd October 1942.

Preliminary Forecast of the Bhadoi Crops of Bengal, 1942-43.

(*Note.*—On an average of the five years ending 1940-41 the area under autumn rice in Bengal has represented some 7·5 per cent. of the total area under rice in India.)

Character of the season.—Rainfall in March and April was sufficient for the preparatory tillage and sowings commenced in the earlier districts. Subsequent long continued drought interfered with the progress of the operations and affected the growth of the crops to a great extent. Good rainfall in August and September, however, improved the prospects and a fair harvest is expected for the province.

Acreage.—The total area sown with the different *bhadoi* crops this year is reported to be 6,995,000 acres as against 6,946,200 and 7,261,200 acres respectively in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 6,257,200 acres as against 6,304,100 and 6,485,300 acres respectively in the corresponding and final forecasts of last year.

Outturn.—According to the District Officers' estimates, the outturn of the different *bhadoi* crops for the presidency works out at 67 per cent. of the normal this year as against 80 and 84 per cent. respectively in the corresponding and final forecasts of last year.

The outturn of autumn rice as estimated by the District Officers works out to 66 per cent. of the normal for the province this year as against 80 and 85 per cent. respectively in the corresponding and final forecasts of last year.

M. Carbery,
Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 5th October 1942.

First Forecast of the Winter Rice Crop of Bengal, 1942-43.

(*Note.*—On an average of the five years ending 1940-41, the area under winter rice in Bengal has represented some 20·7 per cent. of the total area under winter rice in India.)

Character of the season.—The season opened with favourable weather conditions and the lowland crop in the east and part of north Bengal districts started well. Later the conditions changed owing to a late and weak monsoon with the result that transplantation was considerably delayed and the immature plants, both broadcast and transplanted, were adversely affected. Latterly beneficial rains have occurred and improved the prospects of the crop to a great extent. Considerable damage was caused by drought. Insect-pests are also reported to be damaging the crop in certain tracts. The outlook at present may be regarded as fairly satisfactory.

Acreage.—According to the District Officers' estimates, the total area under winter rice works out to 16,103,200 acres as against 16,838,900 acres, and 16,914,100 acres in the corresponding and final forecasts respectively of the last year. The decrease in area as compared with the last year is mainly due to want of good and timely rainfall.

Outturn.—From the district returns appended it will be seen that one district reports a normal crop, four districts 92 per cent., two 90 per cent., five districts between 80 and 85 per cent. and seven districts return 70 to 75 per cent. and the remaining districts below 70 per cent. of the normal. According to the above estimates the provincial outturn anticipated is 78 per cent. against 83 and 96 per cent. of the normal respectively in the first and final forecasts last year. I should, however, expect a 10 annas outturn for the province as a whole.

Director of Agriculture, Bengal

In the matter of the Indian Companies Act, VII of 1913,

and

In the matter of Lowa Gold Mines, Limited.

NOTICE is hereby given that the order of the High Court of Judicature at Fort William in Bengal, Ordinary Original Civil Jurisdiction, dated the 31st day of August 1942, confirming the reduction of the Capital of the abovenamed Company from Rs 25,00,000 to Rs 22 74,500 and the minute approved by the Court showing with respect to the Capital of the Company as altered the several particulars required by the above Act was registered by the Registrar of Joint Stock Companies, Bengal, on the 22nd day of September 1942

The said minute is in the words and figures following —

"The Capital of the Lowa Gold Mines, Ltd, henceforth is Rs 22,74,500 divided into 22,745 Shares of Rs 100 each, of which 19,745 Ordinary Shares of Rs 100 each and 3,000 5 per cent Cumulative Preference Shares of Rs 100 each instead of Original Capital of Rs 25,00,000 divided into 25,000 Shares of Rs 100 each, of which 19,450 Ordinary Shares of Rs 100 each and 5,550 Preference Shares of Rs 100 each At the registration of this minute 5 493 of the said Ordinary Shares are issued and on each of them the sum of Rs 100 has been and is to be deemed fully paid-up"

The reason for the reduction is as follows —

That the Agreement between the vendors and the Company was made beneficial only to the original members of the Company and accordingly the paid-up portion of the share capital was unduly enhanced which is the root cause of all troubles

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 13th October 1942.

Second Forecast of the Sugarcane Crop of Bengal, 1942-43.

(*Note.*—On an average of the five years ending 1940 41, the area under sugarcane in Bengal has represented some 7·8 per cent. of the total area under sugarcane in India.)

Character of the season.—As indicated in the first forecast the weather at the outset was not quite favourable owing to drought. Since then the condition has improved and a fair outturn is expected for the province.

Area planted.—The total area planted with the crop is estimated to be 299,800 acres this year as against 300,800 and 313,900 acres, respectively, reported in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of the District Officers, the average outturn of the crop for the province this year works out at 73 per cent. of the normal against 77 per cent. both in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for sugarcane is estimated at 73 per cent. as against a ten years' average of 84·7 per cent. This means that the condition of this year's crop is equal to about 86 per cent. of the ten years' average. The current year's acreage is less than that of the previous year by about 4·49 per cent.

M. CARBERY,

Director of Agriculture, Bengal.
